

CITY 750

CITY 750

City 750, the new-generation vending machine, embracing all the best technologies that make DUCALE famous.

A coffee as guarantee

The Ducale coffee brewer with stainless steel brewing chamber and grinder-doser with automatic grinding adjustment allows the dispensing of always impeccable drinks, unforgettable for their quality and taste. The aroma and quality of the coffee beans remain unaltered for a long time thanks to the Ducale vacuum system. In City 750 the dispenser can also be provided with a single or double coffee canister thus widening the choice to the final user.

Coffee to go inside

This technology allows the presence of 2 different cup formats in the dispenser + lid supplied directly on the drink so you can fully taste your espresso during a break or your drink during a busy working day.

Syrups and toppings

The large number of canisters for soluble products, together with the kit of 2 additional syrups, allow you to customize as you wish the already rich assortment of drinks available.

Vision door

A real window on the dispenser, allowing the final consumer to feel fully involved as never before throughout the whole process of preparing the drink.
